At Fortis Property Services, we're here to help you protect your property and buildings to prevent unwanted access, occupation, vandalism and antisocial behaviour. Our CCTV and temporary wireless alarm systems enable you to keep an eye on your property remotely whenever you need to and ensure its protected around the clock. Our team is dedicated to offering peace of mind with fast and reliable service, responding quickly to any threats or concerns. We work closely with you to tailor solutions that meet the unique needs of your property.

Not only do these systems act as a visual deterrent, but they can also help to ensure you are compliant with any requirements set out by your insurance provider. Should an alarm be triggered, and the activity deemed suspicious, you will be notified immediately – as will the police. CCTV can provide valuable evidence to assist the police with any subsequent investigations and prosecutions. This added layer of security can give you peace of mind, knowing that your property is being monitored 24/7. With our expert installation and maintenance services, you can be sure your system is always operating at its best. Simply contact us today to request a quotation.
