At Fortis Property Services, we're here to help protect property from vandalism on your behalf quickly and effectively. The presence of a security guard at your property has many benefits. Guards act as a visual deterrent for opportunistic thieves or vandals, they can also intercede should anyone try to trespass. Additionally, they can provide peace of mind to property owners by ensuring any suspicious activity is immediately addressed. Our guards are trained to handle situations professionally, ensuring your property stays secure.

Our services include static guards and roaming patrols that can actively guard a site or perimeter. Dog handlers are an excellent visual deterrent, and their presence has proven to be effective against unauthorised site access. All our personnel are SIA registered operatives, trained to manage conflict and prevent crime, so should any issues arise, you can rest assured they will be dealt with appropriately. We also offer 24/7 monitoring and rapid response to ensure your site remains secure at all times. Our team is equipped with the latest technology to enhance surveillance and ensure real-time reporting, providing an extra layer of security for your site.
